

Let's Talk.

EHS Design is a full service strategic planning, architecture, and interior design firm providing services to corporate, financial, retail, and public sector clients across the United States.

Our philosophy is a reflection of our values as a company. Through innovation, collaboration, creativity, vision, and strategy, EHS Design maintains a strong commitment to providing clients with the best our collective minds have to offer.

Our values are simple. Provide outstanding service at a fair price, communicate clearly, develop long-term relationships, promote staff development, take responsibility, and profit through the success of our clients. And we firmly believe that having fun should be an integral part of our process.

EHS offers competitive compensation and an excellent benefits package, a prime office location in downtown Seattle, challenging assignments and a fun, but hard-working culture.

Architect

The ideal candidate will have a Bachelors degree from an Architecture school and 8 to 10 years of professional experience. Successful individuals will demonstrate strong design skills, have solid technical skills, and be proficient with AutoCAD, Revit, freehand drawing and rendering software, and MS Office Suite. LEED accreditation is considered a plus. Being licensed is not a prerequisite, but desirable.

To take your first step in becoming a member of our award winning team, submit your resume and cover letter to info@ehs-design.com. Samples of previous work are always appreciated but cannot be returned. No phone calls please.

You may also FAX your Cover Letter and Resume to 206-223-4990, Attn: **HR Dept.**

Please see www.ehs-design.com for more information and to view all currently available positions.
